Account

For owners

- Android staff app is **Play Closed testing**, not a public store listing. Invite each phone's Play Gmail, then: Become a tester → Install.
- **Update ready** → Restart. A new Play build is only for icon, splash, or sign-in baked into the app.
- Changes in Dash and Orders show on the site and for workers.
- Deleting a staff account removes login only — not job history.

Related

- Android access
